Role of the Planning Commission

The primary function of the Planning Commission, as outlined in the Pennsylvania Municipalities Planning Code (Act 247 of 1968), is to prepare and periodically update the County Comprehensive Plan. Its secondary function is to assist local municipalities in preparing their comprehensive plans, zoning ordinances, and subdivision and land development ordinances. Another function is to be a standing member of the Metropolitan Planning Organization (MPO) and to act as its official secretary. The MPO is primarily responsible for preparing and updating a county-wide transportation plan consistent with the requirements of both the Federal and State governments. Additionally, the Planning Commission prepares the County's 12-Year Transportation Program. This program lists all the major highway, bridge, mass transit, and airport improvement projects to be undertaken within Cambria County.
