

# AAA Assessment Division

- An Aging Program Assessor analyzes medical, functional and psychological information to provide level of care recommendations for facility placement or in home services via Senior Life or Waiver
- The assessment takes place in the hospital, nursing home, personal care home or community after the necessary forms are received by the AAA
- Waiver evaluations require a prescription from the attending physician with a nursing home level of care recommendation. Nursing home or personal/domiciliary care home evaluations require a regulatory form of the Pennsylvania Department of Public Welfare called the MA-51 which needs completed by the attending physician
- Contact the AAA at telephone # 814.539-5595 and speak with an Aging Program Assessor to answer any questions and obtain an information packet
